

UONGOZI Institute was established in 2010 by the Government of Tanzania to inspire and equip Tanzanian and African leaders to deliver inclusive and sustainable solutions. This is done through the provision of high-quality executive education, facilitation of policy dialogues, action-oriented research and advisory services for public and private institutions.

The Institute's Resource Centre (RC) is a knowledge hub that offers a rich selection of informational materials on leadership and sustainable development. Housed in the Institute's offices in Dodoma and Dar es Salaam, it has a wide range of users, including leaders, researchers, development practitioners, higher learning students and the general public. The Centre plays an essential role in designing and refining programmes under the Executive Education and Research and Policy departments.
