

GROW YOUR CAREER WITH US!

IT INFRASTRUCTURE ENGINEER

We are looking for a tech-savvy professional with a passion for designing, deploying, and maintaining cutting-edge IT infrastructure. If you thrive in an environment that embraces innovation and values collaborative problem-solving, we invite you to join our dynamic team.

- Degree in Computer Engineering or related field.
- 4+ years' experience in IT infrastructure roles.
- Oversee AWS cloud deployment and utilization of O365 and Google Workspace
- Competent on Linux server administration.
- Use JIRA to track and manage projects.
- Strong grasp of servers, storage, virtualization, cloud computing, scripting, and more.
- Exceptional problem-solving and troubleshooting skills.
