

## **JOB TITLE: Team leader (Replacement)**

City/Country Location Details: **Dodoma/Tanzania**

Employment Status

Job Type: **Project EU**

**For Project: Technical Assistance for support implementation of Green and Smart Cities SASA programme in Tanzania**

The consultancy contract for Technical Assistance (TA) supports the implementation of the **Green and Smart Cities SASA programme**. Among the objectives of the Green and Smart Cities SASA include (1) promotion of enabling urban environment and enhancing local revenue mobilization and inclusive urban economic development, (2) strengthening urban resilience and public services to urban poor communities and (3) stimulating a sustainable local economy in the selected cities, creating economic opportunities especially for women and youth.

The specific objective of this contract are as follows:

**Specific objective 1:** To ensure that the Government of Tanzania achieves the expected results and meets the eligibility criteria of the budget support component of the Green and Smart Cities SASA programme.

**Specific objective 2:** To strengthen the institutional capacities of PORALG and LGAs to efficiently and effectively discharge their roles of promoting and coordinating local economic development, strategic planning and budgeting, public finance management, revenue mobilization, ICT reforms and urban planning and management.

**Specific objective 3:** To ensure optimal alignment and synergies between the different components, contracts and stakeholders of the Green and Smart Cities SASA programme

DAI is looking to recruit **Key expert 1: Team leader (Replacement)**
