

Exciting Career Opportunity!

We are currently seeking to recruit Core Banking Application Specialist (Dar es Salaam)

The successful candidate will be responsible for the following Duties and Responsibilities;

- Administer and maintain the core banking application to ensure its reliability, availability, and performance.
- Monitor system performance, troubleshoot issues, and perform routine maintenance tasks.
- Implement system upgrades and patches, ensuring minimal disruption to banking operations.
- Provide technical support and resolve issues related to core banking applications.
- Act as a point of contact for end-users, addressing system-related queries and problems.
- Coordinate with software vendors for advanced technical support and problem resolution.
- Configure and customize the core banking system to meet business requirements and regulatory standards.
- Develop and implement system enhancements and new functionalities in alignment with business needs.
- Plan and execute testing of new features, system updates, and integrations to ensure they meet quality standards and do not disrupt existing operations.
- Support the implementation of new modules, features, and integrations with other banking systems.
- Maintain comprehensive documentation of system configurations, processes, and procedures.
- Provide training and support to end-users on the core banking system's features and functionality.
- Ensure that the core banking system adheres to regulatory requirements and industry best practices.
- Implement and monitor security measures to protect sensitive banking data and maintain system integrity.
- Participate in and manage projects related to core banking system upgrades, migrations, and new implementations.
- Collaborate with project teams to ensure successful delivery of projects on time and within budget.
- Perform other duties as assigned by the line manager

Qualifications, Skills and Experience Required:

- Bachelor's degree in Computer Science, Information Technology, or a related field.
- Strong knowledge of core banking systems Oracle FLEXCUBE, SQL, and system integration concepts.
- 3 to 5 years of experience in managing and supporting core banking applications or similar financial systems.
- Familiarity with banking regulations and compliance requirements.
- Knowledge of banking processes and financial products.
- Experience with system integration projects.
- Relevant certifications (Certified Information Systems Auditor, ITIL) is a plus.
- Strong problem-solving abilities and attention to detail.
- Excellent verbal and written communication skills, with the ability to explain technical concepts to non-technical stakeholders.
- Experience with project management methodologies and tools is an added advantage.

Reports to: Head of Information Communications Technology.

Deadline for submission of application is 28th September 2024.

All applications (include application letter, Resume, academic and professional certificates) should be sent through jobs@amanabank.co.tz

Only shortlisted candidates will be contacted.
